INSTRUCTIONS

SCORING: For correct answers, place new running total in student's row for the corresponding question. For -1's (3rd incorrect interrupt), place running total and underline it. Replace the question number with an X if the score does not change on that tossup. Make sure to place scores in the column for the correct question.

REACHING +5: Remove student from round. In "Final score" column, place student's total score (refer to the bottom row for the question on which +5 was reached). Put a dash in the rest of that student's row.

END OF ROUND: In "Final score" column, place final score for students not reaching +5 (these can be negative). [25/6]
